

MUHAMMAD FAHAD

FULL-STACK & WEB DEVELOPER

Multan, Pakistan | realfahad.fa@gmail.com | +923027231332 | LinkedIn | Portfolio

Full Stack Web Developer and Information Technology professional with 3+ years of hands-on experience in delivering high-quality, responsive, and scalable web applications. Specializing in modern web development technologies, front-end user interface design, and back-end integration. Proficient in building RESTful APIs, implementing database schemas, optimizing cross-browser performance, and writing clean, maintainable code. Passionate about leveraging cutting-edge web frameworks and clean architectural standards.

WORK EXPERIENCE

Full-stack Web Developer

Cloudtek

Nov 2022 to Present

- Engineered, deployed, and maintained dynamic web applications leveraging modern front-end and back-end frameworks across multiple client domains.
- Developed responsive UI components using JavaScript (ES6+), HTML5, and CSS3, delivering smooth page rendering and enhanced user experience.
- Built secure RESTful APIs using Node.js and Express to facilitate efficient data communication between client interfaces and server databases.
- Participated in database optimization tasks and migrated legacy systems to structured SQL architectures to maximize query efficiency.
- Managed client project deployments using GitHub Pages, cloud servers, and version control workflows to maintain continuous integration.
- Collaborated with cross-functional teams and participated in peer code reviews to enforce strict coding standards and maintainable architecture.

Web Developer & Designer

Ikonic Solution

Apr 2021 to Nov 2022

- Designed and implemented API-centric web solutions and responsive portal layouts focused on usability and cross-device compatibility.
- Refactored legacy code structures by integrating modern design patterns to boost maintainability and reduce technical debt.
- Implemented JWT authentication protocols to safeguard application routes and internal API endpoints against unauthorized access.
- Integrated third-party APIs, including geolocation, social authorization, and messaging webhooks to extend portal capabilities.

- Applied secure web development practices, conducting input validation and data sanitization to protect user data from common web vulnerabilities.
- Engaged in active Agile sprint cycles, daily standups, and backlog prioritization to maintain project timelines and product quality.

Junior Web Developer & Designer

Maxcore Technologies - Multan

Feb 2020 to Apr 2021

- Focused on custom web application development, database relational design, and RESTful API integrations for enterprise web software.
- Developed custom user interfaces featuring dark-mode glassmorphism styling, typewriter animations, and interactive particle canvases.
- Engineered core features for Point-of-Sale (POS) management platforms, online Learning Management Systems (LMS), and interactive web dashboards.
- Configured development environments and hardware system drivers on Windows workstations to optimize programming workflows.

KEY DEVELOPMENT PROJECTS

Personal Web Developer Portfolio

Lead Web Developer

2025 – 2026

- Architected and deployed an interactive personal portfolio website using HTML, CSS, JavaScript, and dark glassmorphism layout aesthetics.
- Hosted live via GitHub Pages with mobile responsiveness and integrated dynamic interactive components.

Interactive Decision & Web Portal Application

Full-Stack Web Developer

2025 – 2026

- Built a customized interactive web branching application featuring dynamic user options, audio synchronization, and animated UI cards.

EDUCATION

BS in Information Technology (Specialization in Web Development)

Emerson University - Multan

Graduation / Coursework Year: 2025

Focused on specialized Web Development courses, Database Systems, Digital Logic Design, and Software Engineering.

TECHNICAL SKILLS

- **Web & Frontend Development:** HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, Bootstrap, React JS, Vue JS, Glassmorphism UI, Custom CSS Animations.
- **Backend Development:** C++, PHP, Node.js, Express, RESTful APIs, OOP, SQL.
- **Databases & Core CS:** Relational Database Systems (SQL), Digital Logic Design, Data Structures.
- **Version Control & Tools:** Visual Studio Code, Git, GitHub, GitHub Pages, Webpack, Vite, System Drivers Configuration.
- **Methodology & Integration:** Agile / Scrum, Jira, Webhooks, OAuth, Third-Party API Integration.

COURSES & CERTIFICATIONS

Web Development & Specialization Certification

Emerson University / Specialized Coursework - Multan

2025

CBT in Web Designing & Development

National Vocational & Training Institute - Multan

Certification in Web Programming

The Net Rider - Multan

Front-end Development & DOM Manipulation

FreeCodeCamp

ACHIEVEMENTS & STRENGTHS

- 3+ Years of practical experience in modern full-stack web application development.
- Prime Minister's Laptop Awardee, recognized for academic excellence.
- Strong problem-solving, UI/UX design sense, and debugging skills.

HOBBIES

- Traveling
- Photography & Graphic Design
- Exploring Modern Web Technologies

LANGUAGES

- English
- Urdu
